Doctorate programs offered by DAC

Doctoral degrees are intended to provide advanced training in research techniques and include the defence of an original piece of research. Successful completion of the cycle leads to the title of doctor, the highest level of further education, and qualifies students for teaching and research.

DAC offers two doctorate programs:

- **Computer Architecture** [1]

EMJD-DC combines a well-structured, interdisciplinary training programme with high quality research work in leading research groups from four universities and countries: UPC (Spain), KTH (Sweden), IST Lisbon (Portugal), and UCL (Belgium).
