Four grants for MIRI MSc Program (HPC specialization)

**Date:** Monday, 8. April 2013

BSC–CNS Scholarships.

Barcelona Supercomputing Center (BSC-CNS) is a prestigious research center and a leader at national and european level in various scientific fields. It is a holder of the Severo Ochoa Award in Research, and a PRACE Advanced Training Centre in HPC, as well as being the leading center in the Spanish Supercomputing Network (RES).

This year, BSC-CNS is offering 4 scholarship grants for MSc students on the MIRI MSc Program in FIB, UPC for the HPC specialization.

The duration of each scholarship is for the 2 academic years of the program starting September 2013.

Successful candidates will have the opportunity to join research groups with top-level scientists and will carry out their MSc thesis research in cutting-edge areas of Supercomputing, HPC or the application areas of Life Sciences, Earth Sciences and Computer Applications in Science and Engineering.

**Available Scholarships:**

2 scholarships contributing to fees: 3200 euros/per annum each

1 scholarship contributing to fees / accommodation: 6000 euros/per annum

1 scholarship for international (non EU) citizen: 12000 euros/per annum
